

WG-333+ ROCK & STONE+

The Wonder Grip® WG-333+ Rock & Stone+ is a glove with a double latex coating constructed on a 10-gauge cotton and polyester liner. HDML™ coating specially developed by Wonder Grip® offers a non-slip surface for an outstanding grip. This unique product, specially designed for heavy work, combines:

- Triple resistance: heat, cold, cut (level B ISO 13997)
- Robust protection
- Non-slip surface for exceptional grip

This ¾ back-coated glove is the perfect solution for users seeking a glove able to protect the hands from cuts and keeps them dry in humid environments.

KEY FEATURES

- ✓ Exceptional anti-wear properties and double protection against thermal hazards, thus outmatching similar products
- ✓ Excellent tactile sensitivity with ¾ back coating designed to protect the knuckles and fingers
- ✓ Soft yet robust technical liner, engineered to offer protection against the cold and heat, as well as cut level B protection
- ✓ Extremely durable latex coating with increased resistance around the thumb for extended use
- ✓ Designed to reproduce the natural shape of the hand, for ease of movement and continuous wear

TYPE OF PROTECTION

- General purpose
- Heat resistance
- Cold resistance
- Cut resistance

APPLICATIONS

- Agriculture
- Public authorities
- Construction-and-public-works
- DIY
