WG-338 THERMO PLUS

The Wonder Grip® WG-338 Thermo Plus is a fully double latex-coated glove constructed on a 13-gauge acrylic liner. Thanks to the Wonder Grip Technology™ coating, it brings users grip and resistance in dry and watery environments. The WG-338 has been designed to provide double protection: cold resistance and 100% waterproof, as well as cut level C/ A3 protection. The WG-338 Thermo Plus also offers IT compatibility making it the perfect solution for users seeking a glove offering flexibility and touchscreen functionality even in below-freezing temperatures. As part of our Net Zero glove range, the WG-338 is proudly manufactured in carbon-neutral facilities, combining advanced protection with our vision for a more sustainable future.

KEY FEATURES

- ✔ Brushed acrylic single liner providing additional insulation and protection against the cold
- ✔ Cold-resistant and water-repellent latex coating designed for comfort, dexterity and flexibility
- ✔ High-visibility orange improves hand visibility and on-site safety
- ✔ Soft yet robust technical liner engineered to provide protection against cold and heat, with A3/C cut protection
