WG-355 DUAL

The Wonder Grip® WG-355 Dual is based on our innovative DuaLiner™: the nylon knit wrist goes up to the middle of the hand to ensure a snug and secure fit, while the breathable microfibre knit liner for the knuckles and fingers provides excellent dexterity, softness and fingertip precision. The single latex coating of WG-355 Dual helps to maintain excellent grip in a wide variety of applications, helping you overcome work challenges with precision, every day. As part of our Net Zero glove range, the WG-355 is proudly manufactured in carbon-neutral facilities, combining advanced protection with our vision for a more sustainable future.

KEY FEATURES

✔ Ultra-lightweight microfiber and nylon liner designed to accelerate moisture evaporation
