WG-522B BEE-TOUGH

The Wonder Grip® WG-522B Bee-Tough combines Bee-series™ knitting technique and a nitrile coating providing oil resistance and an optimal long-lasting grip. The upper part of the gloves is made of an ultra-lightweight liner offering both high resistance to torsion and unmatched breathability. Bee-series™ knitting technique creates a unique shape on the palm, maximising the coefficient of friction delivered by the coating itself. The lower part of the glove benefits from the DuaLiner™ technology and its special support on the back of the hand, ensuring a snug and secure fit. Features Bee-series™, DuaLiner™ and a nitrile coating, WG-522B Bee-Tough sets a new standard for comfort at work in greasy and oily environments.

KEY FEATURES

- ✔ Soft coating enhances hand movement for improved dexterity and reduced fatigue
- ✔ Knitting technique creates a unique palm shape and enhances grip
- ✔ Ultra-lightweight liner offering both high resistance to torsion and unmatched breathability
- ✔ High grip for safe handling in dry-to-oily environments

TYPE OF PROTECTION

- Heat resistance
- General purpose

APPLICATIONS

- Assembly
- Warehousing packing and logistics
- Construction and public works
