

WG-540S AIR-S

The Wonder Grip® WG-540S Air-S is a glove with a single nitrile coating constructed on a seamless, breathable and high-stretch 15-gauge liner. Wonder Grip Technology™ foam nitrile ensure an outstanding grip, comfort and an "all-around breathability" reducing perspiration and skin irritation. WG-540S offers unsurpassed comfort and tactile sensitivity for the precision handling of small parts or fasteners in slightly wet and dry environments.

KEY FEATURES

- ✓ Lightweight and high-stretch seamless liner offering dexterity and 360° breathability, thus preventing perspiration
- ✓ Optimised fit for improved dexterity and reduced hand fatigue
- ✓ Maximum mechanical performance and extreme breathability
- ✓ Superior grip performance for precise handling in dry-to-wet applications

TYPE OF PROTECTION

- General purpose

APPLICATIONS

- Aerospace
- Assembly
- Warehousing-packing-and-logistics
- Automotive
