

WG-555 DUO

The Wonder Grip® WG-555 Duo is based on our innovative Dualiner™: the nylon knit wrist goes up to the middle of the hand to ensure a snug and secure fit, while the breathable microfiber knit liner for the knuckles and fingers provides excellent dexterity, softness and fingertip precision.

WG-555 Duo's breathable foam nitrile coating contributes towards

keeping your hands dry and maintaining a great grip in a wide variety of applications, helping you overcome work challenges every day.

KEY FEATURES

- ✓ Ultra-lightweight microfiber and nylon yarn combined liner, engineered to accelerate the sweat evaporation process
- ✓ Freedom of movement on the upper part of the hand and a snug fit on the wrist, ensuring an excellent level of sensitivity and comfort
- ✓ Proprietary foam nitrile coating, providing a secure grip in wet and slightly oily environments
- ✓ Anatomically engineered, reducing hand fatigue and ensuring an ultimate level of precision and comfort

TYPE OF PROTECTION

- General purpose

APPLICATIONS

- Aerospace
- Assembly
- Food industry
- Mechanical industry
- Automotive
- Warehousing-packing-and-logistics
