WG-633 DEXCUT®

The Wonder Grip® WG-633 Dexcut® is designed for heavy-duty tasks in dry or slightly greasy environments where medium-cut hazards are present. Certified to ISO 13997 level C and ANSI/ISEA 105 level A3, it delivers reliable cut protection without compromising durability or comfort. The specially developed HDML™ coating ensures a secure non-slip grip, exceptional wear resistance, and double protection against thermal risks, providing confidence in demanding conditions. A high-visibility orange finish enhances on-site safety by keeping hands clearly visible, while its triple layer of protection makes the WG-633 a versatile choice for semi-dry environments requiring robust cut resistance.

KEY FEATURES

✔ Tailored to the natural shape of the hand to reduce fatigue and improve comfort

✔ Extremely durable latex coating with reinforced thumb area for extended use

TYPE OF PROTECTION

- Cold resistance
- Heat resistance
- Cut resistance

APPLICATIONS

- Construction and public works
- Metallurgy
- Waste management
- Mining industry
