

WG-795 DEXCUT®

The Wonder Grip® WG-795 Dexcute® is a glass-fibre-free glove that delivers very-high cut protection with outstanding flexibility and superior comfort. Built on a 13-gauge liner engineered in-house, it combines stainless steel with a unique HPPE fibre to achieve ISO 13997 level E and ANSI/ISEA 105 level A5 protection. Compared with other gloves in its category, the 13-gauge construction provides a robust yet close fit, offering excellent dexterity and wearability without compromising on safety.

Thanks to Wonder Grip Performance™ nitrile coating, the WG-795 Dexcute® ensures a strong grip and certified heat resistance (EN 407:2004 X1XXXX), making it dependable in demanding environments. In addition, the glove is touchscreen compatible, allowing professionals to operate smartphones and digital devices without removing their protection.

The Wonder Grip® WG-795 Dexcute® combines maximum cut resistance with ergonomic comfort and modern practicality, making it the ideal choice for users who require high safety standards alongside ease of use in challenging applications.

KEY FEATURES

- ✓ Liner developed in-house to be free of fiberglass, adapting to the wearer's hand shape, with cut level A5/E protection
- ✓ Enhanced hand movement for improved dexterity and reduced hand fatigue
- ✓ Reinforced thumb crotch for increased protection and extended use-life
- ✓ IT-compatible with touch screen functionality for improved working conditions.

TYPE OF PROTECTION

- Heat resistance
- Cut resistance

APPLICATIONS

- Assembly
- Public authorities
- Glass
- Automotive
- Metallurgy
- Warehousing-packing-and-logistics
