

WG-733+ DEXCUT®

The Wonder Grip® WG-733+ Dexcut® is designed for heavy work in dry or slightly greasy environments involving medium to heavy cut hazards. HDML™ coating specially developed by Wonder Grip® offers a non-slip surface, exceptional anti-wear properties and double protection against thermal hazards. The comprehensive set of protection encapsulated in our unique WG-733+ makes it the ultimate all-round glove in semi-dry environments.

KEY FEATURES

- ✓ Soft yet robust technical liner, engineered to offer protection against the cold and heat, as well as cut level A4/D protection
- ✓ Exceptional anti-wear properties and 3/4 back coating designed to protect the knuckles and fingers
- ✓ Extremely durable latex coating with increased resistance around the thumb for extended use
- ✓ Designed to reproduce the natural shape of the hand, for ease of movement and continuous wear

TYPE OF PROTECTION

- Cut resistance
- Cold resistance
- Heat resistance

APPLICATIONS

- 建設・工事
- 公共事業
- 金属加工
- ゴミ回収
